Cloud for Government

Cloud is the perfect solution for an industry that relies on secure data and constant communication between employees across multiple locations. RapidScale, a Cox Business company, offers a solution that helps government organizations boost workforce productivity, predict costs and enhance agility across every sector.

Security

Government entities rely on having the highest level of security. With RapidScale's Tier 3 data centers, sensitive information remains secure.

Scalability

RapidScale's solutions are extremely scalable, allowing government agencies to respond to constantly changing needs in a timely and effective manner.

Transparent Pricing

Predictable monthly costs help government organizations effectively manage their budget, while still gaining access to industry-leading cloud services.

Efficiency

Cloud is the most efficient way to respond to operational requirements, enabling users to connect from virtually anywhere, at any time, on any device.

A Modern Government

With modern technologies and emerging trends, government organizations are becoming eager to reshape operations and services. RapidScale can facilitate this process, enabling a connected, modernized and innovative government.

In a sector as critical as the government, it's important for agencies to take this step into modern computing while working with world-class, reliable cloud computing services like RapidScale's.

The cloud makes it easy to connect employees in the office, in the field, or across the world. Your users can log into a secure cloud environment from any device and collaborate on team projects, promoting remote work and increasing overall productivity.

Cloud computing enables new services through web-based user portals, and allows organizations to gather, manage and analyze vast amounts of data. RapidScale makes it easy to keep business processes running smoothly.

Cloud Security

RapidScale offers high-quality protection for your data and information in our secure, redundant and geographically diverse data centers. Our Tier 3 PCI DSS-certified data centers, which are audited annually to produce a SOC 2, Type II report, help keep your sensitive information safe and secure.

All of RapidScale's data centers feature:

- ❯ On-premises security guards
- ❯ Exterior security systems
- ❯ Biometric security systems including palm scanners
- ❯ Continuous digital surveillance and recording

They're engineered to the highest of standards to help keep your business running 24/7/365. RapidScale's 100% US-based certified network experts and engineers are available around the clock, ensuring you always have someone to turn to with questions or concerns.

- ❯ Complete data encryption in transit and at rest
- ❯ Cisco routers, and Fortinet and vShield Edge firewalls with 256-bit encryption

Cost Efficiency

Cloud services can optimize IT resources and greatly reduce capital expenses and operating costs. Instead of building for maximum capacity, you can allocate the cloud storage and resources you need to manage your IT landscape for optimal storage, application processing and IT workload needs. You'll also experience automatic updates while avoiding the headache of hardware refreshes.

Application Integration

RapidScale simplifies application purchasing and license management for your business. We can integrate some of the most commonly used business apps into your cloud environment, including Canvas, Field Squared, NationBuilder, QuickBooks, Basecamp, and AccuFund.
